THE FRENCH CABINET AND ITS PROGRAMME.

CHANGES IN THE PORTUGUESE MINISTRY.

Paris 23rd—M Spuller has been named Minister for Foreign Affairs.

Paris 23rd (later)—The Cabinet, headed by M. Tirard has proclaimed its programme.

M Tirard begins by urging the necessity of voting the Budget. He states that the Government would spare no effort to render the Exhibition a success, and he concludes by stating that he will defend the Republic and its institutions.

London 23rd—The Cabinet has been changed as follows: Barros Gomez, Finance; Bossano, Marine; Coelho, Commerce.

THE GERMANS AFLOAT AT SAMOA.

THE NEW NAMBY-PAMBY CABINET IN FRANCE.

INCONVENIENTLY BIG SNOW STORM IN CHINA.

13 MILLION PIGTAILS GONE.

HALF JAPAN BURNED OUT.

London, 23rd —The report is confirmed that a French cruiser (an Italian?) bombarded Sangallo, where the Atchinoff expedition has for the present taken up its headquarters. The bombardment was brought about by the refusal of Atchinoff to lower the Russian flag which he had hoisted. Five of the expedition party were killed, and the rest of the party were taken prisoners.

Berlin, 23rd—Four German war vessels stationed at Genoa have received instructions to sail immediately for Samoa.

The German evolutionary squadron off the Spanish coast has been ordered to Port Said, and will probably be sent to the East Coast of Africa.

Ottawa, 23rd—Telegrams from Rome state that the Holy See has refused to allow the Jesuit order to confer University degrees.

A deputation of millers has applied to the Canadian Government to increase the duty on foreign flour from fifty cents to one dollar per barrel.

Paris, 23rd—The Ministerial programme which is a short one, will be made known to-day. The Cabinet will urge the necessity of maintaining peace and of opposing the enemies of the Republic within the limits of the law.

Clemenceau will move that the Socialist member, General Cleusceret, be interpellated in regard to Boulanger and those members of the Right who voted against the Ministry.

San Francisco, 23rd—The mail from China has just arrived. A terrible snowstorm occurred at Chufot. Over 1½ millions of people perished from hunger. Revolts occur daily. The missionaries were attacked by the mob headed by officers. A great fire took place in Shidsnoki, Japan, the flames spreading to 14 streets. One thousand houses were destroyed by the fire, including churches, schools and other public buildings. On the following day a fire broke out in Uhakae, and 500 houses were burned down. Three men perished in the flames.

A VISIT TO THE WIDOW GRAU.

YELLOW FEVER BREAKS OUT IN LIMA.

Lima, 23.—President Caceres sent his aide-de-camp to welcome commander Rivadavia and the officers of the Argentina. The Argentine Minister subsequently accompanied the gallant commander and his officers in the return visit. The President has been invited to a lunch on board. Commander Rivadavia afterwards visited the widow of the famous Grau. The bereaved lady presented him with Barrasa's watch.

Some cases of yellow fever have occurred here. No serious alarm as yet.

PUBLIC GAMBLING.

With a feeling of keen satisfaction we hear that stringent measures have been adopted in the proper quarters to nip in the bud the spirit of gambling that developed in such short time and at such an amazing rate in the Bristol Hotel and other gaming resorts of Mar del Plata: that satisfaction is enhanced by the conviction that the innate respect with which people in this country bow to the law of the land, and the undoubted determination of the authorities to stamp out the evil, will suffice to quiet the moral qualms of a staggered public. The very recollection of the Mar del Plata gambling season of 1889 stands alone and makes one's hair stand on end; and much as we admire the atmosphere of the sea-side with its ocean breeze and rustic aroma and their collateral tonic and restorative effects on mind and body, we must deplore that such healthy agencies only last from sunrise to sunset, to then recede before the dissolving elements that run riot at the gambling tables and beat all gaming records of Baden-Baden, Wiesbaden, Homburg, or Monte-Carlo.

What stakes, ye goods! At the Bristol Hotel gathering it was thought "in fra dig" at a crowded baccarat table to stake less than $1000 at a time. Banks were run up with lightning rapidity, to disappear again with the flash, to five, ten, twenty, nay forty thousand dollars. Whilst talking of thousands we may mention a case in one of the leading clubs, not many days ago, when 120,000 dollars changed hands on a card at baccarat. But in these remarks we are not dealing with clubs, we refer to gambling in public in Mar del Plata, where the amount of the stakes, the fever of the game, and the frenzy in the Hotel Bristol called for immediate redress at the hands of the authorities.

Withal there was a certain grandeur in the Mar del Plata gambling that commends itself to the admiration of the untutored; and it must have been quite refreshing to hear of Mr. A, who arrived on Monday with forty thousand dollars and was completely cleared out on Tuesday; of Mr. B. who took out a roll of one hundred notes of a 1000 dols. each and dropped 60 thereof at a single sitting; of Mr. C. who raked in over one hundred thousand and helped poor Mr. D. to recoup his losses of the previous night. This was gambling on a magnificent scale. It is quite evident that the Bristol Hotel did not come under the ordinary denomination of a gambling hell where a police-office could make a raid and arrest the offenders; nor were the gamblers the vicious crowd clutching at banknotes that should pay for the next day's marketing for a starving family. Not they, in their gay attire, full-dress and white cravats, only twenty yards away from the saloon where a dazzling galaxy of beautiful women talked, played, and sang among themselves, too well-bred to resent the absence of their fathers, husbands, brothers, and admirers. The men over the cloth, and the women alone. Beauty and fashion on the sofa—leading capitalists, bankers, brokers, deputies, officers, round the green cloth!

After the night's orgy came the reflection of mid-day, when the slain and wounded were counted and the envied victors signalled along the beach—beacons, setting a splendid example to society. Such utter dissolution could not last long, and now happily it is at an end: at least the public is vindicated, since gaming is stopped at public resorts. It matters little what individuals may do within the four walls of a club room, as long as the public is spared the sight, and the example does not injure the collectivity. Tom, Dick, and Harry are quite free to stake their fortunes at roulette or baccarat; their folly or their fortune is of little public concern, but the public gambling at Mar del Plata was an offence to the society gathered at that pleasure resort.

Apart from the moral depravity entailed by such excesses, there is the financial view of the situation. We do not think there is a country in the world where, speaking comparatively, gambling is carried on in such a general manner, and on such fabulous amounts as here. The only explanation we can give for such a phenomenon is that the gambling spirit runs higher here owing to the fortunes made of late years in land and stock speculation. Quite a new "couche" of millionaires has risen: like mushrooms they have sprung up 'twixt night and morn on the speculative field, and such is their number that in Europe they maintain that Buenos Ayres has more millionaires than any other city of her size. People who five years ago had not the price of their boots, nor money to pay their washerwoman's bills, to-day roll in wealth, build palatial mansions, drive their carriages, and they can well afford to pay a few hundred thousands of dollars in the pleasurable excitement of a baccarat table. Pitched on the surface by successful politics or successful speculation, nobody need grudge their pastime in private; but spare the public, and the measures that put a stop to the Mar del Plata gambling deserve the thanks of that public and encouragement that their benefic action may be extended to the gambling haunts in our streets here and public squares where such dens flaunt their magic attraction in big letters over doors, windows and balconies under the ægis of a law that levies a tax on their ill-gotten gains.

THE IRISH IMMIGRANTS.

The British Immigration Committee met yesterday, Mr. Casey in the chair.

Mr. Gartland presented a letter, to be signed by the Committee, guaranteeing the carriage of all the materials, etc., for the families on the land.

The Secretary presented receipt from Rev. Mother of the Irish Convent for blankets and old clothes, forwarded by Mr. Johnstone.

Mr. Casey stated that in the opinion of Dr. Hanley the families should be at once removed from their present quarters; that Mr. Delisle had most kindly allowed them to move to his barraca in the Plaza Constitucion, and Mr. Krabbe had facilitated the tramway; the families move up, therefore, this evening.

Mr. Drysdale stated that the beds for the immigrants will not be ready before Monday and that consequently the people cannot leave before Tuesday.

Mr. Levey, of London, who has much experience in emigration matters with Australia, thought that the next batch of emigrants should be kept on board and demurrage paid until proper places were arranged for them.

Father Gaughran said that the nuns gave a great deal of clothing yesterday to the poor people applying for same.

Mr. Gartland stated that eight agrimensores are on the land, awaiting the arrival of the emigrants to give them their farms, and that the sooner they go out the better. He had purchased everything on his list, and the question now was about the train and when it starts. He also stated that it was necessary, above all things, that the Railway Co. should stop the train on his land, that the line runs from kilo 678 to 684 and that anywhere between these points would suit him, but that kilo 696, as mentioned in Mr Abbott's letter, would never do. Mr. Drysdale replied that he had seen Mr. Sam Abbott about this, and that there would be no difficulty whatever, as he promised to stop the train on the land, also to make a side line for convenience of waggons.

Mr. Casey stated that now that the Minister of Foreign Affairs had returned, the Government would take immediate steps to put a stop to shipping such enormous numbers of poor immigrants. He thought that 200 per month would be about the right number.

Mr. Levey stated that it was a mistake to send out such large families, that he had seen at the British Legation, a couple with 8 small children, and he did not think it fair towards the colonists, or Mr. Gartland, to start such a family in the camp. The Secretary reported 18 families taken for Quilmes, all on monthly wages Father Gauchran thought that already all the girls were placed, and that nothing now remained but the families. Mr Gartland hoped the Railway Company would put on a sleeping car as he and Father Gauchran and Mr. F. H. Mullhall intended to go down in the train with the people.

Dear Sir,

With reference to our conversation this morning, the lowest rate we have for goods to kilo 696.70 is $8.03 gold per ton.

In this special case I am willing to make a considerable reduction on the freight as materials necessary for the *immediate housing* of these colonists and will charge only cost price at $50 mjn per waggon of 8 tons and without responsibility.

I remain Dear Sir,
Yours faithfully.

SURPLUS CAPITAL.

A NEW RUSSIAN COLONY.

Cannes, Jan. 18th.

The overflow of capital at present in G. Britain is greater than the surplus of population. In fact it may be doubted whether England could spare a million of her present inhabitants (unless you took them from the "alums" or the prisons), but there is no doubt that she could find abroad much better fields for capital than at home. The Argentine Republic is at the moment in high favor, and I am not surprised to see among the new enterprises of the week an "Argentine and London Bank". The great success of the London and River Plate Bank, and also of its junior, the English Bank of the River Plate, is sufficient encouragement to a group of London capitalists to start a third establishment of the kind. The names of the Directors are quite unknown to me, which is not wonderful, as I am a stranger east of Temple Bar. But I suppose they are all first-class, steady, respectable men, although perhaps few of them could tell you whether the Argentine Republic is on the Atlantic or the Pacific seaboard. You will see the prospectus in the London papers that reach you by this mail. It invokes public interest by extracts from our Handbook, and shews how rapidly Argentina has advanced of late years. This sudden awakening of Mr. Bull to the new countries of La Plata is quite amusing. During a period of 40 years after the Independence our countrymen had the monopoly of Argentine trade; they were all-powerful when I first knew Buenos Ayres, 30 years ago, but began to lose their grip about 1863, the very time that the Republic first shewed signs of a great and important future.

In the last 25 years, since the incipient decline of British trade relations with Buenos Ayres, about 1,800 millions of British capital have found their way to every corner of the globe. A good deal was wasted in Peru and Honduras, a portion was sunk in American mines already exhausted; but if one-tenth of the amount above named had been invested in Argentine estancias—sheep, land, cattle and the refining of breeds—it would have been lucratively employed.

Perhaps we are on the eve of a new efflux of British enterprise and capital to the River Plate. Who knows but we may see a dozen English banks in the Argentine Republic before long? The more the merrier. We may even see shops all along Calle Florida with English names "and at No. — Regent-street, London."

Meantime, the Colonies are likewise bidding for some of the extra capital. A new Victoria (Australian) loan was issued yesterday for three millions sterling in 3½ per cents. at or over par, no tender being receivable under £100 for that amount of stock. If anybody had said ten years ago that Australia would be able in 1889 to borrow £100 at 3½ per cent he would be treated as a visionary. In May 1882, Sir Dillon Bell published his famous manifesto in the *Times* that the Australian Colonies were determined to pay off their debt (then 98 millions sterling) in imitation of the Americans. In my reply to him I stated my firm belief that "the Australian Debt will certainly reach 150 millions by the year 1890". We are only in 1889 and it is now somewhere about 162 millions. The money has been, moreover, well and productively expended.

Avignon, January 18th.

The world is startled with the announcement of a Russian colony which is about to establish itself at Olokh, on the east African coast, a little south of the Gate of Tears, Bab-el-Mandeb, which forms the southern entrance to the Red Sea. On the 15th inst. a Greek Archbishop with 20 priests and a general officer, besides 140 Lincolnshire farmers—I mean Russian artisans, passed through the Suez Canal, en route for Obokh. It seems the artisans had a particularly military bearing, and there is well-grounded suspicion that the colony is meant rather for fighting than anything else. The Negus of Abyssinia, or the Emperor Johannes if you prefer a title more consonant with temperance principles, is gravely troubled by his father-in-law, King Menelek of Shoa, who seeks to annex Abyssinia.

It may be asked what have European Powers to do in the matter? Very much, unfortunately, for the bad example set by Great Britain in meddling with the Soudan and Egypt has stimulated Italy to side with King Menelek against the Negus. Russia on the other hand wishes to help Johannes, and is about to build a convent and settlement on the coast, near Obokh, from which place it will be easy to smuggle arms and ammunition to Magdala, for use of the Negus. This will, moreover, tend to make Italian settlement at Massowah more exposed, and we know already that Italy has suffered severe losses in that quarter.

The Italian Government may be expected to resent this new move on the part of Russia, for we may be pretty certain that the boxes marked "Bibles" contain simply gunpowder, and the "artisans" are artillery officers and gunsmiths. One hundred such men can do much to organize the Abyssinian army on a superior footing, just as fifty French officers did the army of Runjeet Singh within our own recollection. It is possible that with such help the Negus may make short work of King Menelek and of the Italian settlement at Massowah, and even revive the traditions of Ethiopian empire.

As for the utility of establishing a Russian colony on the bleak, sandy coast that intervenes between the dominion of Zanzibar and the mouth of the Red Sea nobody can perceive it. Russia has already more territory than she can use. Not many years ago she sold Alaska to the U. States, and Jonathan thinks now that he might have been wiser in not buying it. So destitute, moreover, is Russia of funds to develop one-half of her present empire that she is supposed to be in treaty for introducing Chinamen into Siberia, the timber and minerals of which country form immense resources undeveloped.

At all events the relations between Italy and Russia will not be improved by this extraordinary Cossack move in eastern Africa. The long-expected continental war in Europe seems every day more inevitable, as if France and Russia were determined to measure swords with Germany, Austria and Italy. Repeated attempts on the Czar's life have perhaps inspired him with the idea that a great war can alone turn away the Nihilists from murdering him. The Empress of Russia is said to be in an alarming condition of shattered nerves since the late railway "accident". It is to be pitied that the Czar did not take Melikoff's advice of establishing a constitutional monarchy.

THE BUENOS AIRES BUILDING AND SAFETY DEPOSIT COMPANY

Under this title a Company has been formed with the following objects:—

To acquire the property situated at the corner of Calles Piedad and Reconquista, formerly occupied by the National Bank.

To erect upon said site a five story building with a spacious basement and containing an interior passage leading from one street to the other:— At each of the two entrances from Piedad and Reconquista there will be an "Elevator" to facilitate the ascent to the other stories.

There will also be a broad gallery to give general communication.

The arrangement of this magnificent building will be as follows:—The Safety Deposit Vaults and safes will be in the basement, which is to be constructed of fire proof cement and steel, and this enterprise, new to this country, will be established under the most favorable conditions. For many years similar institutions have been in existence in the United States, and the brilliant success with which they met led to their introduction into every city of any size in the country.

The "Buenos Aires" will have 5000 independent safes, which number will be considered small as soon as the administration, convenience and security are realized, and which is a small number indeed when compared with those provided by the Manhattan and Metropolitan Safe Companies of New York.

In this department there will also be portable safes especially convenient for brokers and others who require to be continually depositing and removing securities and other valuables.

Cedulas, shares and other titles will be received for safe keeping; interest on the same will be collected and remitted to the owners either in or out of the country at a moderate charge.

The vestibule or entrance hall will be spacious and contain general offices for the use of patrons of the establishment, also offices with desks where any one who wishes can, unobserved, investigate the contents of his safe. There will be a special office for ladies to deposit titles of property, jewels and other valuables, and where the security will be absolute.

In the construction of safes and vaults the English and North American manufacturers have attained to a high degree of excellence, so high that for 20 years they have been invariably referred to in the most eulogistic terms. Either Milner or Chubb, the leading safe and lock makers of England, will be engaged by the "Buenos Aires" to construct and put in their safes.

The ground floor will have four fine suites of offices suitable for bankers, brokers and important undertakings requiring commodious premises, and which, on account of their elegance and the favorable situation of the building, cannot fail to be rented to good advantage.

There will be rooms along the whole length of the passage suitable for exchange and other offices.

The principal story will contain a magnificent suite of offices to be occupied by the BUENOS AIRES Insurance Company and other institutions.

The second, third and fourth stories will contain rooms specially built for offices, having all the accommodations and conveniencies that are to be found in other countries. The rental will be moderate and they are sure to receive the preference from all who desire a well ventilated office and one where due respect is paid to the laws of hygiene.

In the fifth story bankers, brokers, merchants and the financial and commercial community generally will find an agreeable novelty. In it will be established a Commercial Club with a restaurant after the English model, so far as is advantageous, and in the form of a Club, in order that only those who are duly elected can become members. Here, without being separated either from the Bolsa or their offices will be found all those most prominent in financial and commercial circles.

London and New York possess like institutions where the leading financiers and merchants meet and, while supplying the wants of the inner man, discuss matters of general importance.

This grand edifice will attract universal attention and will give a sure income to the shareholders of at least 18 o/o per annum. The capital is to be $1,500,000 m/o., in shares of $100 each, payable 20 o/o upon subscription and 20 o/o every three months thereafter until the whole amount is paid.

The following gentlemen constitute the first Directorate:

Emilio N. Casares,
Carlos Dorado,
Eduardo Casey,
Nicolas Bouwer,
Marcos Avellaneda,
Esteban L. Badaraco,
Eduardo T. Mulhall,
Alfredo Demarchi,
Juan Drysdale, Jr.

A syndicate have offered to take the limited number of shares now unsubscribed for, but any person desiring a portion of them will receive a form of application upon addressing

Eduardo M. Coit.

THE SAMOA QUESTION.

GERMANY'S EXPLANATIONS.

M. BAYARD'S STATEMENTS.

Berlin, Jan. 24th.

It is stated in well-informed quarters that the German Government has repeatedly declared, both in London and Washington, that Germany has no intention of annexing Samoa or of interfering with the rights of the other Treaty Powers.

One of the Berlin papers recently published a telegram from its London correspondent, stating that the British Government had decided to strictly maintain the Treaty precluding any European Power from acquiring or seeking to acquire a predominating influence in Samoa. The telegram also asserted that England and the United States were agreed that the proceedings of the German agent in Samoa were not only contrary to the letter and spirit of the above-mentioned Treaty, but were also opposed to the rules of diplomatic etiquette, and finally that Notes in this sense had reached Berlin from the Cabinets of Washington and London. In reference to these statements, the *North German Gazette* this morning denies the existence of any such agreement as above stated, and declares that according to the provisions of the Anglo-German Treaty, the Tonga and Samoa groups and Nine Island constitute neutral territory, and are included in the sphere of influence of neither England nor Germany. The Treaties of friendship and commerce existing between Samoa and Germany, England, and the United States contain in almost identical terms a declaration to the effect that the Samoan Government promises to concede to each Treaty Power the same rights as to any other Government or the subjects of any other country. The semi-official organ proceeds to state that no Treaty arrangements exist between Germany and the United States in reference to the neutrality or independence of Samoa, and that the whole of the assertions in the telegram are pure invention. No Notes from the Cabinet of London on the Samoan question of the nature indicated have ever reached Berlin; and, indeed, since the Sackville incident the relations of Great Breat Britain and America seem to be little compatible with the idea of diplomatic intimacy. In conclusion the journal says that the non-existence of such agreements will, it is self-evident, not deter Germany from respecting the rights acquired by other States in virtue of Treaties concluded with Samoa.

Philadelphia, Jan. 29.

The Senate has approved all the items in Diplomatic Bill proposed in connexion with Samoan affairs.

Mr. Secretary Bayard, in the course of a recent interview, said:—

"The question for Americans to consider is whether we shall continue to maintain neutrality as between Mataafa and the Germans, or assume the *rôle* of a belligerent towards Germany on behalf of one of the two claimants for the throne. Thus far Germany has given us absolutely no cause for war. The American flag burnt in Samoa had not been hoisted in assertion of American rights."

Baltimore, Jan. 29.

A report of an interview with Mr. Bayard, the Secretary of State, upon the Samoan question is published to-day by the *Baltimore Sun* in a despatch from Washington.

He said that Germany had given no *casus belli*. The United States flag had not been insulted, nor had American property been destroyed. The whole question was—"Should the Government of the United States assert the independence of Samoa by force, if need were, against German aggression?" As this involved the question of peace or war, the determination of which resided with Congress, the whole subject had been referred to the Legislature, the President not feeling authorized to take further steps which might precipitate hostelities.

Only that day he (Mr. Bayard) had received a communication from Count Arco-Valley, the German Minister in Washington, expressing a sincere desire to come to a settlement satisfactory to the United States. Germany had expressly disclaimed any intention of giving offence to the U. States. The flag burnt in Samoa was not the flag of the American Consulate, but one flying in a little village which the Germans shelled and which subsequently took fire. The flag had not been hoisted in assertion of any American rights.

All acts of Germany which were inconsistent with her professions had grown out of petty political intrigues among the native chiefs and rivalry between foreigners for influence and commercial supremacy.

Mr. Bayard further said he had no authority to make a vigorous protest against Germany's treatment of Malietoa, who was not an American citizen. American rights had been in no way invaded. The German were confronted in Samoa with pretty much the same situation as was America in Hayti. They claimed that the Samoans had broken treaty engagements, as had the Haytians, and that they had the right to punish them.

Washington, January 25.

Mr. Bayard, Secretary of State, is reported to have declared in reference to the recent article upon Samoan affairs published by the *North German Gazette*, that he did not know the writer, and therefore could not assume that his statements were official. It might prove to be newspaper gossip, although the declaration concerning the boundaries of the German and British dominions in the Western Pacific, signed in Berlin in 1886, would preclude German acquisition in Samoa.

Senator Edmonds is also stated to have spoken upon the subject, as follows:—"I suppose that if Prince Bismarck wants to express his opinion on any subject he will feel at perfect liberty to do so. I also suppose that the expression of such opinion will nor deter America from carrying out any policy desirable or necessary. The Samoan Islands are on the highway of commerce across the Pacific, and are very important in relation to the development of trade, *via* the projected canals across the Isthmus of Panama and Nicaragua. For the Powers whose ships go long cruises to establish coaling stations is a necessary, and the location of one on the central island of the Samoan group, as provided for in the Bill now before the Foreign Relations Committee, is regarded as being important to the United States".

Senator Frye, speaking on the same subject, is represented to have declared that American Treaty rights did not permit of the independence of Samoa being violated. At the same time he regarded the idea of war as absurd.

IMPORTANT GOVERNMENT DECISIONS—THE TIGRE LANDS FOR THE CENTRAL ARGENTINE—THE CHACO AUSTRAL RAILWAY—MESSRS. HUME'S PURCHASE

Some important business was done yesterday in the Government House in regard to railways. In the first place a decree was issued approving the kilometric cost of the proposed railway from 9 de Julio to San Rafael and from San Juan to Chumbicha. The price has been fixed at 22,800 and 30,250 dollars gold respectively. This concession enjoys a 6 per cent guarantee for 20 years. The length of the line is to be 1250 kilometres. Another decree was issued approving Mr. Anacarsis Lanus's contract for a railway from the right bank of the Parana in front of the city of Corrientes to a station on the Central Northern between Metan and Santa Rosa. This concession enjoys a five per cent guarantee on a maximum kilometric cost of 27,030 dollars gold. A third decree issued grants for ten years the lands required by the Central Argentine for a station in the Tigre. And finally, a fourth decree was issued approving the transfer made by Messrs. Hume Bros. of their purchase of the Central Northern to the Central Cordoba Railway Company.

The technical reports of Inspectors Koranda and Ziese, copies of which were forwarded yesterday, contain the usual information in regard to the bed and rolling-stock of the Pacific, East Argentine, and Central Entre Riano Lines. The last named is in a deplorable condition, as we observed in our issue of yesterday, owing to the damages caused by the rains. The road-bed, in spite of the number of men employed in repairing it, is in a dreadful state. In fact, it is for the moment dangerous to run trains over it, and traffic of course has been brought to a standstill. The rolling-stock is well kept. Unfortunately there are very few men in the Parana workshops. But the manager, to save the situation, has opened new workshops in Uruguay. In regard to the East Argentine, Mr. Ziese states that the trains run with irreproachable punctuality, and that the permanent way and rolling-stock are in excellent condition. We are glad to hear this. The much-maligned East Argentine is certainly wonderfully improved since the memorable visit of Inspectors Pinto and Quesada. The East Argentine should renew its rolling-stock, which is now rather old and worn out. Mr. Ziese reports no accident.

The Pacific Line is as usual in a wretched state. The story is such an old one that, not to weary our readers, we shall throw Mr. Koranda's report into the waste-paper basket. No accidents occurred.

A correspondent in a local contemporary states that the contractors of the Transandine Line, which is to connect Rosario with Talcahuano, have not studied with sufficient care the question of the most suitable pass across the Andes. The Barilochi pass was discovered in 1806 by Lt. Colonel Louis de la Cruz. The Concepcion pass was, we believe, discovered by Munoz de Guzman. It lies between Antuco and Mamilpapu. These two passes may be one and the same, for aught we know. The Andes are so distant from us that it would not be safe to credit every story wafted from those unexplored and mysterious regions. There is yet another pass, which lies between lake Alomine, from which the river Alomine takes its source, and Lake Rucampec, which feeds the famed Bio-Bio. The distance between the two lakes is barely five miles, and this distance may be considered reduced to one half by an immense swamp. The pass there is easy, and no tunnel would be required. Besides the level is perfect on the Argentine side. It would be advisable, the correspondent goes on to say, to run the line on the Chilian side along the Bio-Bio to a junction with the Angeles Branch-line, or with the Mulchen Railway, which is actually in course of construction. One of the most serious difficulties about the Chilian country, from a railway point of view, is crossing the hills or mountains on the coast. It was owing to this that such fabulous sums were sunk in the building of the Santiago and Valparaiso Railway. The cost of the Talcahuano Railway was comparatively insignificant because the line was run along the Bio-Bio. The valley of the Bio-Bio has moreover a great advantage: The level of the country varies very little. It is altogether a strange river, for its course is from south to north, with the exception of a small fraction of its course between Santa Barbara and Negrete. The state owns nearly all the land about there, which is the widest stretch in the country. Immense forests cover the lands and could be turned to excellent account, first and foremost to supply sleepers and then the timber could be exported. The rarest timbers are to be found in abundance. But this is an industry of the future.

THE ATRATO'S PASSENGERS.

S.S. Jupiter; in quarantine.
21st Feb. 89.

To the Editor of the STANDARD,

Dear Sir:

It is not to augment the balderdash which already has been written about the "Atrato" and her misfortunes that I address you. I simply want you to send me a newspaper every morning to see the news, to enliven our imprisonment and make us feel a little more charitable towards those who, in one way and another, were the cause of our troubles. We are very happy here, having passed that stage of righteous ire in which one tried to vie with another in the more full development of set phrases. We, however, weary exceedingly. "Twenty three" days were the words of the gentleman of ruddy hue in the London office of the Royal Mail. We expected the "Atrato" to do the passage in twenty three days. What a miserable failure! I make no further comments on the reasons why we did not do the passage in twenty three days: that is known to all; but I do say that it was because those expectations were held out to me that I took a return ticket specially marked "per 'direct' steamer back" and "Atraso" twenty three days, back." I am paying dearly for my folly.

There is not a vestige of disease here, and, unless some third-class get ill from drinking the bad wine supplied, there is no reason why we should not remain sound; but if there be a case of common sickness an excitement is caused at once. I only hope that the weather keeps calm, as, if a blow spring up, a number would be seasick.

Yours sincerely,
A. H. Johnston,
"Las Algarrobas"
Cañada de Gomez.

President Celman arrived back from Montevideo on board the Admiral Brown on Friday night, at 9 p.m., and at once rowed ashore and got to his house about midnight. Most of the guests with him, however, preferred to sleep in the steamers, and they landed soon after daylight. All the travellers speak in very high terms of the hospitality of their Montevidean friends, and their great enjoyment of the week's trip.

A match was played between the Rosario and Cordoba Cricket Clubs on Saturday 16th on the ground of Mr. Colson at Rio Seg

EDITORS' TABLE.

(Continued from 1st Page.)

It will put this country to the pin of its collar to match the United States in the Paris Exhibition in its show of Woods, though, probably, this country is much richer in this respect than the Northern Republic. An exchange says:—"A collection of specimens of American woods is to be sent by Dr B. E. Fernow, chief of the forest division, for the United States display in the Paris Exhibition this year, obtained from Morris K Jes up's collection in the Museum of Natural History. The woods include 150 different species of American trees in small blocks. With them is a series of water colours, representing the trees in foliage, and restricted to the distinctly typical species. Mr Jessup's entire collection numbers 500, and, with nine exceptions, includes all woods now known in American forestry

"The Buenos Ayres Sofo Company" is the "novedad" of the day. We received yesterday a photograph of the new premises to be erected for the Company on the site of the old National Bank quarters at the corner of Piedad and Reconquista. It will certainly be the finest building in town, and the business to be carried on therein will be quite new to this country, though long known in the United States. The several storeys of the building will be devoted to different uses, and the cellars will contain 5000 Chubb and Milner safes for holding securities of all kinds of bankers, capitalists, land-owners, etc. There will also be portable safes for brokers; and special ones for ladies' jewels.

The new Industrial Club in Rosario will be able to do more harm in the way of Protection and "industrias del pais" than the old one, if it be true that the banks there have decided to give it an open credit of 2½ midion Nats. A lot of "fomentation" can be done with such a lump of money. The Rosario Municipality are in the field again, we see, for a loan of 1½ million dollars, ostensibly for paving, or macadam, or some such unimpeachable purpose.

Some time ago, a woman in Iowa hanged herself because her husband went to California. Shortly thereafter a number of husbands went to California from the same neighbourhood, but their wives "couldn't see it." The husbands returned disappointed and dejected.

Impunity breeds audacity. In spite of the terrible state of things at Mar del Plata in the gambling line which we and other papers have referred to, a Mr Arnut has asked the La Plata Government to give him a 25 years privilege for a Casino there, in which whist, carté and other "harmless" card playing will be allowed Of course the L. P. G will do nothing of the kind.

Excepcional remate con condiciones nunca vistas magníficas chacras en el centro Agrícola La RIVIRA sobre el ejido del pueblo de Chacabuco la mejor tierra para agricultura que hay en la Provincia de Buenos Ayres. Base de venta la hipoteca de 10 ps. por hectarea; el comprador no tiene que pagar amortizacion intereses al Banco durante tres años pues los pagara el vendedor. El remate se efectuara en chacabuco en casa de los Srs. Blanco y Villar.

El Domingo, 17 de Marzo

A LAS 3 en punto de la tarde

Despues de la llegada del Ferro-carril Remataremos con la base estipulada de 110 ps. por cada hectarea en cedulas hipotecarias; todas las chacras que componen el conocido centro Agricola La Elvira situado casi sobre el ejido del pueblo de Chcabuco.

Las condiciones de pago son las siguientes Pagando el comprador la diferencia de las cedulas, el excedente, la mitad al contado que se entregara al firmar el boleto y la otra mitad á 6 y 12 meses de plazo sin intereses firmando pagares con garantia; y el plazo á contar desde el dia del remate.

El comprador no tiene que pagar amortizacion é intereses al Banco Hipotecario durante 3 años, pues estos seran pagos por el vendedor.

Las chacras son de 50 y 100 hectareas algunas con edificios que valen 1600 $ y mas; Jagueles etc. y todo esto entra por nuerto en la venta.

Llamamos la atencion de los agricultores sobre las condiciones de esta venta y sobre la bondad de la tierra, pues el partido de Chacabuco es reputado uno de los mejores que existen en la provincia para la agricultura.

El centro agricola La Elvira dista solamente 1 1/2 leguas del pueblo de Chacabuco.

La venta se efectuara con arreglo á la ley de ce tros agricolas. En el establecimiento del Sr. Rocha habra quien muestre el campo que ofrecemos en venta. Planos detallados á nuestra casa Alsina num. 482.

El Remate Deseado
La Villa Maximo Paz
En La Plata
Domingo 24 del corriente
HACE UN AÑO QUE LA

Sociedad Territorial La Plata

Empezo la construccion de una iglesia y como una veintena de casas, donde figuran magníficos retiros, bajos y altos; grandes y chicos, hizo plantaciones de arboles en sus plazas, calles y boulevares, acercas en todas las manzanas, en fin formó un pueblo chiche en la entrada de la gran ciudad; pueblo que hoy la entrega para ser vendido, bajo el martillo, á todo precio pagadero en

diez años por mensualidades

Todo el que ha visitado á La Plata conoce donde esta situado MAXIMO PAZ; nada mas espléndido como terreno; una gran loma, nada mejor como posicion, con la Estacion Maximo Paz á tres cuadras de la de TOLOSA, crevisdo por los Boulevares 19 y 13; por este último pasa el tramway de La Plata á Buenos Aires: es terraplenes de la via bruzan ya la Villa, en frente de la Fabrica del señor Serrano y á tres cuadras de la otra de los señores Frerez y Carbonier, á una cuadra del Barrio Serrano, á una cuadra de una escuela publica; á 16 cuadras de los Tribunales, á 38 de la plaza principal de La Plata como si dijeramos el 11 de Setiembre de Buenos Aires, con una Iglesia que será inaugurada el dia del Remate, diciendose una misa cantada por el cura que ha tenido á bien el Sr. Obispo nombrar, habiltando dicho lugar con todo lo necesario recinto nuevo al templo de Maximo Paz.

El Domingo, 24 corr.

saldrán con la concurrencia tres trenes expresos, uno de la Estacion Constitucion á las 9½ de la mañana, otro á las 3.20 y otro de La Plata á las 8 p.m.

Mas detalles mañana.

Los trenes dejarán á la concurrencia en los mismos terrenos donde encontrará un lunch abundantisimo, como para cinco mil personas, carne con cuero, sandwichs, etc. Habrá grandes carpas donde podrá la concurrencia resguardarse del sol.

En fin: todo un dia de campo, un magnifico paseo gratis y la oportunidad de asegurar el porvenir de un hijo con una mensualidad tan insignificante que estará al alcance de hasta del ultimo jornalero.

La venta abarca no solamente los solares sino tambien la edificacion, hay terrenos con una pieza, con dos, tres y chalets, preciosos con tres, cinco y seis piezas que facilmente podrán comprarse por una pequeña mensualidad. Hacemos de proporcionarles un dia de placer que nos ha de ser agradecido.

La ceremonia de inauguracion y consagracion de la iglesia, será espléndida y digno de verse el abanderamiento, las carpas, tanta concurrencia que se calcula en no menos de cinco mil personas, donde se encontrará toda La Plata; todo esto es un terreno altisimo; invita á los habitantes de Buenos Aires á dejar sus habitaciones y trasladarse á este sorprendente Remate.

Los trenes saldrán de La Plata a las 8 a.m., de Constitucion a las 9½ a.m. y de la Estacion Central a las 8.20 a.m.

Por planos, boletos y de mas informes á las oficinas de la sociedad Reconquista 64 y al escritorio del rematador en idem 66, num. nuevo. 122 8 f24

Fines & Lagos
The pick of the CAMP

Soil and situation unexceptional, most interesting affair, tremendous future, 3 hours from the Capital, return the same day.

In Zarate In Zarate In Zarate

The best camp in the North, comprising the beautiful pleasure and productive mansion, belonging to Sr. Miguel Lima, the sale of which is caused by this gentleman's absence in Europe: it is sufficient to announce the situation and ownership of the camp to give an ample idea of its value. Fattening camp with very abundant soft grass like gramillo, cardo azual, alfilerillo, trebol de carretilla and clor.

To give an idea of the quality of the soil, suffice it to say that, when there is no pasturage on the adjoining camps, in this they are fattening 1700 steers and 6000 sheep, paying a dollar a head for cattleand 2 cents for sheep. This splendid camp of 1233 hectares, distant a league and a half from the Estacion Lima, F. C. Rosario and 30 squares from the village chacras and the Colonia Lima, bordering for some distance on the river Arceo which joins the Barradero a few squares off and the Barradero joins the Paraan.

All this superb camp is perfectly fenced with 5 strings of steel posts and half posts of Quandubay every 5 varas and wiring in the centre. Divided into 4 potreros, each with a large trough, water deposit, cement trough etc.

In one potrero there are 100 hectares of alfalfa, 700 fruit and forest trees, eucalyptus magnolia, palms, gardens, etc. In a word, it is an Eden!

Attention, speculators and capitalists! Prepare for a surprise! Up to the present time there has never been such an important business with such an insignificant base. Base $225 the 100 hectares. Absolute sale! We repeat that Sr. Lima is going to Europe. Remember that in the Salado, lands have been sold at $200 per hectare and $300 to 450 have been given for Centros Agricolas.

Recently in Pilar 150 cuadras of camp have sold for $1000. This notable business has 150,000 cedulas, series M. Comparatively, therefore, it can be had with little money. On the basis fixed, the purchaser can remain with the mortgage for the price of the cedulas, the day of the contract. The payment to be made half down and half at 4 months with 8 per cent per annum.

For plans and further particulars apply at our office 153 San Martin. Those who desire to visit the camp will meet at the Lima station on the arrival of the first train a carriage which is at their disposition on Thursdays, Saturdays and Sundays. LICITACION

Para la construccion de la Estacion Central de ferro-carriles de la Nacion

Se llama á licitacion por el término de setenta dias para la construccion, por cuenta de la nacion, de la estacion central de ferro carriles en esta capital, bajo las siguientes condiciones:

1º La estacion será construida en los terrenos del puerto de la capital y paralelo á la linea de los diques proyectados, debiendo situarse la fachada principal con frente al palacio de Gobierno y la otra fachada mirando al dique designado en el plano del puerto con el número 9.

2º En todo lo que se refiere á la ubicacion en general y á las dimensiones principales de la estacion, vias etc.,—los planos que se presenten deben estar de conformidad con el proyecto, aconsejado por la comision aprobado por el honorable congreso; de dicho proyecto pueden pedir cópia los interesados en el departamento de ingenieros.

3º Las vias de la estacion central, como las de acceso á ella, se construirán á un nivel de 5 á 6 metros mas bajo que el suelo general de las vias públicas y muelles, debiendo tanto los andenes, como el espacio delante de la estacion destinado para tramways y carruajes, ser cubiertos por techos de armadoras de fierro.

4a No será permitido la aplicacion de la madera para tirantes, viges, columnas y armaduras de techos en el edificio de la estacion y sus dependencias.

5a El bajo nivel abierto de la estacion y vias de acceso será cruzado por puentes de fierro, piedra ó ladrillo en la prolongacion de cada una de las calles perpendiculares á la linea de diques.

6ª Los andenes, techos, muros, paredes laterales, etc. deben ajustarse al perfil normal de espacio libre en estaciones en uso en los ferrocarriles de trocha ancha de 1 metro 676.

7º El edificio de la estacion se construirá en dos cuerpos simétricos separados por un pasaje de 20 metros de ancho. El ancho total del terreno á ocuparse es de 106 metros; en este están comprendidos:

Via de carruages, tramways, etc., de 15 metros.
3 andenes de 8 metros cada uno.
1 Andeu de 5 metros.
1 Veredа de 6 metros y 16 vias de trocha ancha.

Los andenes tendran 210 metros de largo entre las vias.

8º Las cuatro mesas giatorias tendrá 14 metros de diametros cada una, debiendo teneerse presente al proyectar la estacion que ella sera usado por 7 diferentes ferrocarriles.

9º El edificio de la estacion debe contener las localidades siguientes:

Sales de espera 1ª y 2ª clase, sala de espera para señoras, toilettes para señoras y hombres, restaurants y confiterias con sus cocinas y despensas correspondientes.

Boleteria de 1ª y 2ª clase para cada uno de ferrocarriles que haran uso de la estacion central.

Dr. J. COLLIS BROWNE'S CHLORODYNE
(Ex Army Medical Staff)
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. J. Collis Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. COLLIS BROWNE'S CHLORODYNE
REMEDIAL USES AND ACTION.

This invaluable remedy requires quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests these too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan-5th 1880. To J. T. Davenport, Esqr., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed remedy, **DR COLLIS BROWNE'S CHLORODYNE** has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from the taste, we fancy their sojourn there will be but tyanecessary. We could multiply instances *ad infinitum* of the extraordinary efficacy of **DR. COLLIS BROWNE'S CHLORODYNE** in Diarrhoea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in

Interest for the moment seems to be again concentrated on the gold speculation and movement of the premium. The battle between bulls and bears absorbs all attention, particularly as the belligerents are supposed to be now pretty evenly matched, and all sorts of rumours are afloat about the tactics that will be brought into requisition next week. It is said that there will be a heavy delivery of gold by sellers, who are confident that rates cannot go higher, and consequently will bide their time for buying back next month, and this added to the fact that the tendency for end of month is unmistakably weak, points to a decline. On the other hand, out of the 12 monthly liquidations in the year, the premium advances for ten and declines only for two, a fact that somewhat discounts bearish expectations. Matters to-day followed the same course as during the past week, the stiff demand for cash keeping the quotation firm without there being any pronounced advantage for either side beyond the shortening of the interval between this and the liquidation. Stocks continued to reflect a slight animation, but the sovereign stock was neglected, and only Credito Real and Constructors were in much demand. It now looks extremely improbable that National Bank Shares will advance this month, unless the rumoured bullish syndicate open operations promptly. The paralysis of stocks is causing much attention, owing to the cheapness of money and the amount of capital seeking investment.

Business at the first hour to-day was entirely confined in gold to operations for cash, end of month, and end of March. For cash 537,475 changed hands at steady rates, opening at 155.50, advancing 10 cents, and then falling away to 155.20, at which it stood for some time, finally closing at 155.30. For end of month less than half a million, a very small business, was disposed of, the quotation opening and closing at 155.20. For end of March there was a trifle more animation, operations embracing 610,000 dollars, opening at 155.40, and closing 30 cents lower. The tendency all round was weak at the close, and it is expected that a vigorous attempt to put down gold will now be made. Cedulas were in fair demand at sustained rates. One lot of National Bank Shares was disposed of at 263. A small lot of Spanish Bank Shares was let go at 99 o/o, and some Commercial Bank Shares at 1 to 3 o/o premium. Bolsa Scrip was quiet and firm. Credito Real improved to 132 for end of month and 133 for end of March, and Constructors to 126 for latter date, which is considered a splendid quotation, considering the dull state of the market. The Obligations seem stuck hard at 15 for cash.

In spite of the gloomy anticipations entertained with regard to the failure of Dr. Reus's mission in this city, he was warmly greeted at the meeting of the shareholders of the Obras Company yesterday, where he was so strongly supported that all his resolutions were carried, including, it is thought, the new board of directors, of which Mr. E. Casey is president. Little was said or thought of the 31,000 unauthorized shares, but several of the shareholders tried to take the word over the sale to the Company of lands owned by members of the board. Dr. Reus, however, put his heel down on all the speakers, ruling them out of order, and the meeting broke up without any definite business having been effected.

The Ayacucho Agricultural Show and Fair Committee sent round to-day notice of their intention to hold their 13th fair on the 24th, 25th and 26th of March next. These rural shows are the best sample of and one of the most potent factors in the advance of all camp interests, and farmers should lend a willing aid to the furtherance of their success. The president of the Ayacucho Committee is Mr. M. Acasuso, and secretary Mr. J. M. Iturralde.

Dr. Rufino Varela, we believe, will take office as Minister of Hacienda on Monday or Tuesday. The eyes of the market are on him, as he enters office with a very high reputation. What steps he intends to take to help the market and reduce the premium on gold is the great question. The example of the Rio market is before him; exchange has risen to 28½, and all Argentines admit that whatever reforms the Brazilians are able to effect in bringing their paper not only to a par but to a premium, Argentines are also well able to accomplish. The proposed export tax on gold is but a short sighted absurdity.

Advices from Genova report that Messrs. Mellini & Co. of that city have contracted with Messrs. Rivas & Co. (Buena Medida) for all their chianti, and they can only ship to Rivas & Co. It seems that the consumption of chianti in this market has greatly increased within the last year.

Governor Donovan has written to the Home Office calling attention to the immediate necessity of building bridges across the Salado, Negro, and Tragadero.

Messrs. Madero and Sons have notified the Government that the Catalinas Mole Company have not yet handed over the lands they are bound to deliver by contract.

Business at the second hour was quiet and most unimportant all round, neither the premium nor stocks showing any signs of change. The closing quotations in gold were 155.20 for to-morrow, and 155.10 for end of month and March. The tendency is still rather weakish, but the cash rate keeps most tenaciously over the 155. In stocks there was a slight revival in Nat Bank Shares, which, however, closed at 263 as in the morning. Bolsa Bank Shares, Credito Real and Constructors were also fairly dealt in and at firm rates. The business in Cedulas showed a falling off in volume.

A party sold this evening for the end of the year 100,000 dols. gold at 152.50, on call, with option to sell 100,000 dols. more; eight days' notice to be given before each delivery.

Exchange was quoted to-day at 47½-3/16d., takers, and on Paris 4.98 ½.

By special telegram from London we learn of the death of Mr. C. L. Norman, one of the principal and active partners of Messrs. Baring Bros.

Mr. Sastre, president of the National Bank, has arrived back from Montevideo, and took his chair at the Bank to day.

Lord Mayor Cranwell, who arrived back from Montevideo with President Juarez Celman, was out on the Flores Road this morning inspecting the work going on. Mr. Cranwell requests us to ask Mr. Sam Abbott to put on more waggons, so as to increase the 'adoquines' for the road, as soon the workmen will be stopped for want of more "adoquines."

A new lamp, suitable for trams, ships, and stoves or deposits, has made its appearance in the market, and one on trial at this office has given the greatest satisfaction. Safety and economy are the salient advantages, as the "cera" or wax used only burns on a wick, being cleanly and smokeless, whilst the wick is not consumed. There is not the slightest doubt that the lamp is far superior in every way to anything hitherto in use, and parties wishing to give it a trial can see the prospectus and sample at this office.

Posters of the Sociedad Territorial auction, to be held to-morrow in Villa Maximo Paz, were in everybody's hands to-day, and caused no small attention, due to the auctioneer's announcement of free trains, free lunch, and a splendid gold medal for the first buyer. This is a new departure with a vengeance in the auctioneering line.

By the s.s. Strassbourg has arrived the first consignment of plant and materials for the immense brewery Bamberg and Co. purpose starting near Quilmes. The consignment is from the well-known factory "Buena Esperanza," in Germany.

The s.s. Medoc cleared yesterday from Bahia Blanca with full cargo of produce for Antwerp direct.

The s.s. Zephyrus, which has received a cargo of frozen wethers at the Drabble establishment in Campana, leaves to day for Montevideo, where she will fill up with produce for Liverpool.

The s.s. Zeta, now anchored in the South Basin, takes the Zephyrus' place at Campana.

Messrs. Collet and Llambi brought to the hammer yesterday a house property in Calle Arenales, between Libertad and Talcahuano, with an upset price of $18,000; it was knocked down to Mr. V. T. Martinez for $23,100.

A late number of *Sheep and Wool* contains the following pertinent remark:—"It is worth knowing that 358,000 bales of wool were imported into Europe during the year, of which we have only taken 10,000 bales. We don't know the value of this wool, or else our Continental competitors are too much for us."

The following commercial telegrams are published by the *Tribuna Nacional*:—

Havre, Feb. 22nd—Light River Plate hides, of 23 to 24 kilos, are quoted at 49 fcs, the 50 kilos. Heavy hides, 28 to 29 kilos, up 50 centesimos, quoted at 56 fcs.

Antwerp, Feb. 22nd—River Plate novillo dry-hides are quoted at 90 francs the 50 kilos. Uruguayan salt-hides, 20 to 22 kilos, with summer coat, quoted at 59.50. Buenos Aires "saladero" and "matadero," of summer, 20 to 25 kilos, quoted at 59.50. The hide market is quiet.

Leipzig, Feb. 22nd—The hide market continues quiet.

London, Feb. 22nd—Argentine 1882 Loan, 5 o/o, quoted at 101. Argentine 1881 Loan, 6 o/o, up 1¼ o/o; quoted at 106¼. Provincial Hypothecary Cedulas, series 1, 8 o/o, are quoted at 58.

Liverpool, Feb. 22nd—Hide market continues sustained; heavy River Plate novillo hides are worth 5d. the lb. Light ditto, 4½d. the lb.

List of passengers arrived per Pacific Steam Navigation Company's s.s. Potosi, from Liverpool, who will be out of quarantine, it is expected, on the 26th inst.:—

Messrs. John Martin, Samuel Smith, A. Burrows, H. Kirk, Mrs. E. Taylor, Master A. Taylor, Miss E. Taylor, Peter Cochrane, J. Lucas, W. Johnston, G. Eyre, F. Parkes, E. Vogel, E. Mr. James Baker was welcomed yesterday from Cordoba. He went up purposely to put up the public laundry.

The Italian s.s. Regina Margheria arrived to-day in the Mount from Genoa with 1250 passengers and 400 tons cargo.

With regard to the frozen meat trade, the *Mark Lane Express* says:—"The frozen meat trade grows steadily, despite many difficulties and disappointments. The importations of mutton and lamb into London and Liverpool have risen from 400 carcass in 1880 to close on two millions in 1888. The great bulk of these came to hand in good condition. The quality of New Zealand shipments, which are the largest in bulk, has tended to deteriorate, while the quality of the River Plate sheep has improved year by year. New Zealand mutton is, however, still distinctly superior to either Australian or River Plate produce, and that advantage may still be maintained by care. The River Plate is making vigorous efforts to increase its export, and is successful in doing so, being assisted by a lower charge for freight, a bounty on exports, and a low rate of exchange. Sales of frozen mutton were at first confined almost exclusively to London, but with greater railway facilities almost the whole of the River Plate and nearly half the New Zealand imports are finally disposed of in the provinces. The market was in a very depressed state at the close of the year, with stocks of frozen mutton undesirably heavy."

THE BEST CURE FOR SCAB
is
COOPER'S
SHEEP DIPPING POWDER.
It has been in use since the year 1843 and is now used upon
more than 50,000,000 sheep every year
Equally good for Dipping or Handcuring.
Guarranted always the same Strength.

Read what estancieros say of it;

GEO. BELL, "Estancia Grande," Pereira
I have found it the best I have ever used, my sheep are perfectly sound, and these condition and the good look of the wool I attribute to the above Dip.
R. JACOB, Pergamino
I shall not cease to express my opinion that Cooper's Dip is without rival its results as well as for its cheapness.
ERNESTO MADERA, Maipu
The result obtained has been so satisfactory that I think it difficult to find a better and more certain remedy.
THOS. HOLLAND, "Flor de Mayo," Pergamino
None has give me such satisfactory results as Cooper's Powders.
TEODORO PETERSON, "La Belgica," Ayacucho
Cooper's Powders have given me a better result than any remedy I have used yet.
GEO. E. CATTY, "El Divisorio," Bahia Blanca.
I have used Cooper's Powders for three years with the very best results on the cure of scab, and I consider that my wool has improved in appearance since I have used it.
